

District News

St George District

On June 25 Deputy Principals from St George District will embark on a series of professional development workshops to enhance their skills in promoting improved student learning outcomes in the classroom.

The workshops will focus on: -

- Coaching and learning how to coach others (4-6) workshops and
- How to conduct action learning projects to bring about an improvement or change in their schools (4-6 workshops).

These Professional development activities have been carefully negotiated with district office and with the leaders of the sessions. They build on skills already acquired in the past about productive pedagogy and consultancy protocols.

Combined Bondi, Port Jackson, St George and Sutherland Districts

In August- September, Neville Johnson will be invited to give a combined district conference on the topics of building professional learning communities, creating effective teams, leading in your school and improving student learning. This is a somewhat ambitious task. Neville comes with much credibility and has been working in many Sydney districts and schools to enhance school effectiveness.

M Wride (District Representative).
